

Focus on your Business with SmartSurveillance.

SmartSurveillance provides an exceptional cloud based security camera experience to small businesses that has typically been reserved for large scale enterprise organizations. Professionally installed cameras with secure encryption help provide peace of mind and allow you to view analytics to make better-informed business decisions.

Let SmartSurveillance do the heavy lifting for your security cameras, so you can focus on your business.

Next generation business class surveillance

- Professionally installed cameras that are encrypted and work without additional software or expensive servers.
- Flexibility to adjust footage quality and recording settings as your business needs change.

Cloud management across your networks

- Manage your cameras and settings from anywhere* using an intuitive online dashboard, the same one that's used to manage SmartWiFi or SmartSecurity services.
- Seamless cloud software updates are automatically pushed to your connected SmartSurveillance cameras.

Easy to use intelligent monitoring and analytics

- Motion heat mapping lets you optimize your merchandizing and business strategies based on activity patterns inside your business.
- Motion Search lets you quickly hone in on a particular area of interest and glean activity within that area, saving you time from reviewing lengthy footage.

We'll manage everything for you.

Think of us as a complement to your IT department. Our highly trained team is with you every step of the way.
